

Dennis Hwang, MD is a sleep and pulmonary physician, the medical director at the Kaiser Permanente San Bernardino County Sleep Disorders Center, and co-chair of sleep medicine for the Southern California Permanente Medical Group. He was the chair of the EHR Integration Task force and a member of various technology and telemedicine committees with the AASM. His research interest is in innovating mechanisms of integrating healthcare-related technologies (consumer devices, medical devices, integration platforms, and electronic health records) to create “big data” sets that can enable development of machine learning approaches to innovate novel diagnostic approaches and care management tools to support population management and personalized medicine strategies.

He holds a medical degree from the University of Illinois College of Medicine and a bachelor’s degree from Princeton University in molecular biology.
