AASM Sleep Prioritization Survey

Marijuana Use to Help Fall or Stay Asleep

Survey Methodology

The American Academy of Sleep Medicine commissioned an online survey of 2,005 adults in the U.S. The overall margin of error fell within +/- 2 percentage points with a confidence interval of 95 percent. Fieldwork took place between March 24-29, 2023. Atomik Research is an independent market research agency.

Survey 2023

Question

Which of the following do you use occasionally or on a regular basis to help you fall asleep or stay asleep?

Results

- One quarter of Americans (25%) said they use marijuana occasionally or on a regular basis to help them fall asleep or stay asleep.
- More parents with children under 18 living at home (30%) than non-parents (19%) turn to marijuana to help them fall asleep or stay asleep.

Overall Results

<u> </u>	
Total	2,005
Prescription sleeping pills	371 (19%)
Other prescription medications (e.g., for depression or anxiety)	336 (17%)
Melatonin	578 (29%)
Other over-the-counter sleep aids (e.g., Tylenol PM, ZzzQuil)	433 (22%)
Other over-the-counter medications (e.g., cold or allergy	
medications)	327 (16%)
Herbal supplements or teas	406 (20%)
Alcohol	372 (19%)
Marijuana	497 (25%)
CBD (cannabidiol)	305 (15%)
Other	43 (2%)
I don't use anything to help me sleep	510 (25%)

One quarter of Americans (25%) use marijuana occasionally or on a regular basis to help them fall asleep or stay asleep.

Almost onethird of people who live in the West (31%) use marijuana occasionally or on a regular basis to help them fall asleep or stay asleep.

About the American Academy of Sleep Medicine

Established in 1975, the AASM advances sleep care and enhances sleep health to improve lives. The AASM has a combined membership of 12,000 accredited sleep centers and individuals, including physicians, scientists and other health care professionals who care for patients with sleep disorders. As the leader in the sleep field, the AASM sets standards and promotes excellence in sleep medicine health care, education and research (aasm.org).
